Leadership skills

**Events are planned to be
held online (via Zoom) on
Wednesdays & Thursdays
(1230-1430)**

Welcome to the College of Arts, Social Sciences and Celtic Studies' Research Career Support and Professional Development Series!

All are welcome to attend, but this programme of events is particularly aimed at early career researchers – especially PhDs in year 2+ of their doctoral programmes and postdocs – working in the broad areas of social sciences and humanities. Supported by NUI Galway's Researcher Development Centre (RDC), this series will take place throughout the spring and early summer of 2022 and has been designed to assist researchers with career-building both within and beyond academia. The events on our programme are informal, and we encourage your engagement.

This is an opportunity to meet other members of NUI Galway's research community, ask important questions, and work on personal development planning as you expose yourself to new ideas and glean valuable insights from experienced professionals. Topics covered in our College's curated list of events will include discussions of work in the public sector, grant writing, interdisciplinarity, entrepreneurship, podcasting your research and writing for the media; additional programming on an even wider range of topics relevant to early career researchers is also available through the RDC's online registration system. Please join the conversation! (www.nuigalway.ie/rdc)

Dr. Lindsay Reid, Vice Dean for Graduate Studies, College of Arts, Social Sciences and Celtic Studies, NUI Galway.
